& COMPANY

Mission | Redesign of an intranet for Pans & Company

Company | **pans**
& COMPANY

1. Build an **online community** where users **can communicate, share their knowledge and activities for work** and non-work related topics.
1. Provide employees with the **necessary tools to learn and develop their carrier**. Such as training, calendars or other similar features.
1. Build a platform where the crew-member can **access relevant and updated information to ease their daily tasks**.
1. Create a platform to help **managers communicate better with the staff**.

Community Issues

In this section, I've combined two areas: a chat for staff to communicate and share knowledge on various topics, and a channel for sharing questions and information about work methodologies.

4 | Learning

The image shows a screenshot of a learning management system (LMS) interface. The interface is dark-themed and includes a sidebar menu on the left, a top navigation bar, and a main content area. The sidebar menu has categories like 'Staff', 'Management', 'Communication Skills', 'Personal Development', '2. Industry Knowledge', 'Restaurant Operations', 'Customer Service', '3. Digital Skills', 'Basic Digital Skills', 'Marketing & Social Media', '4. Technical Skills', 'Culinary Arts', 'Human Resources', '5. Health And Safety', 'Workplace Safety', 'First Aid', 'Injury Prevention', '6. Franchising', and 'Need help?'. The top navigation bar includes a search bar, 'Notifications', 'Messages', 'Help', and a user profile 'WELCOME AITOR'. The main content area is titled 'Customer Service And Hospitality' and 'Customer Experience (CX)'. It features a 'Video Tutorial' icon, 'Documentation', and 'Presentations'. The current section is 'Customer Experience (CX In Industry 4.0)' with a '2. Course Workbook' tab. The video player shows a shopping cart with a play button. The right sidebar lists 'Introduction', 'Market trends', 'Challenges In CX', 'Opportunities for inno...', 'Evolution of industrial...', 'The impact of industry...', and 'Customer journey on CX'. Annotations include red arrows pointing to 'topics', 'Current section', and 'Learning topics' on the left, and black arrows pointing to 'Type of visualisation' and 'Video Sections' on the right.

Current section

It will only appear if the logged-in user is a manager

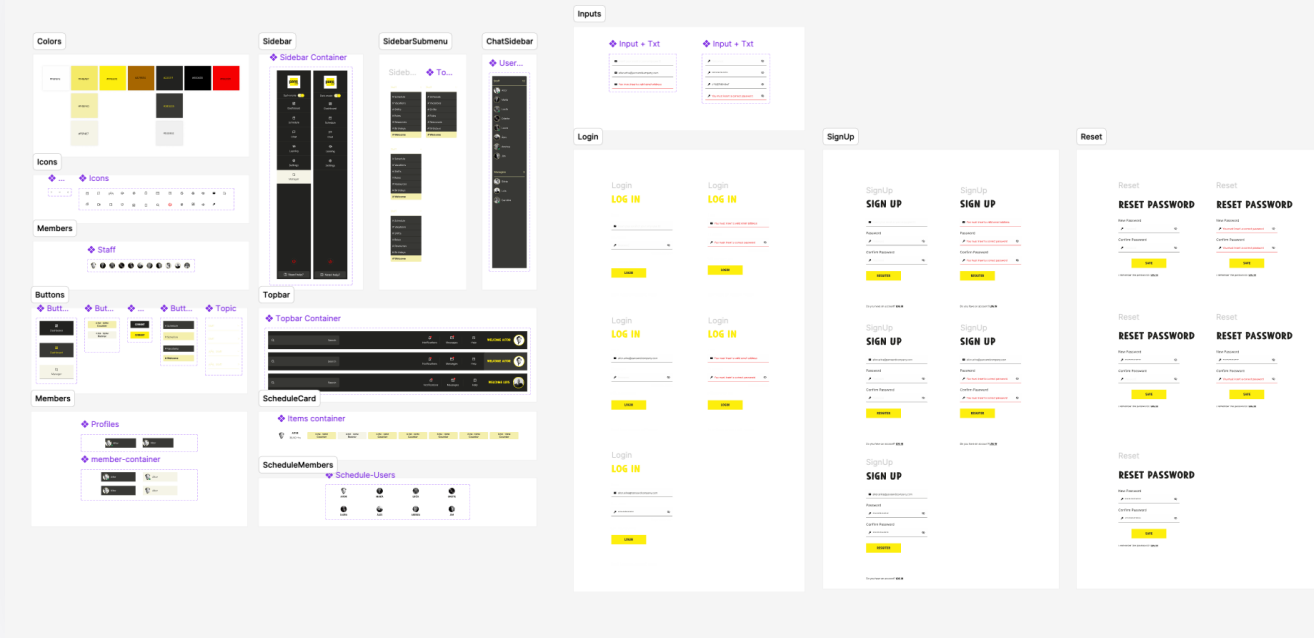

User info

More info

Text area

In this section, the manager has access to a special area where he can privately communicate with any member of the staff he chooses.

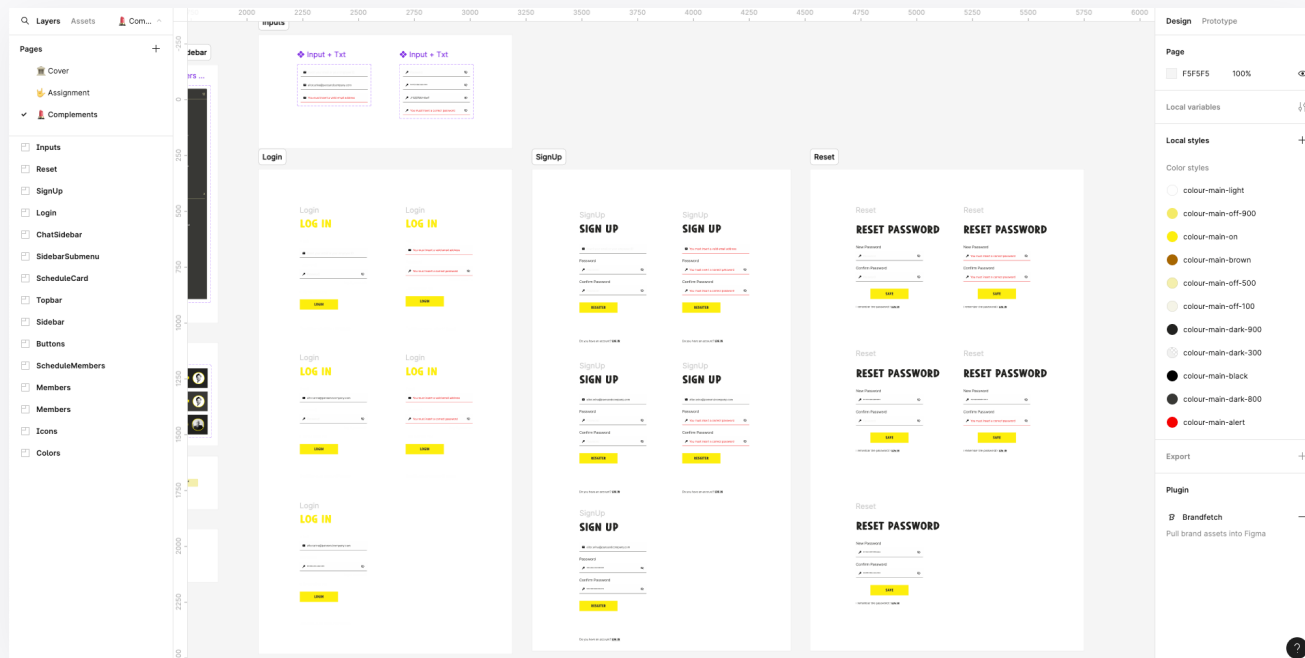

6 | Figma

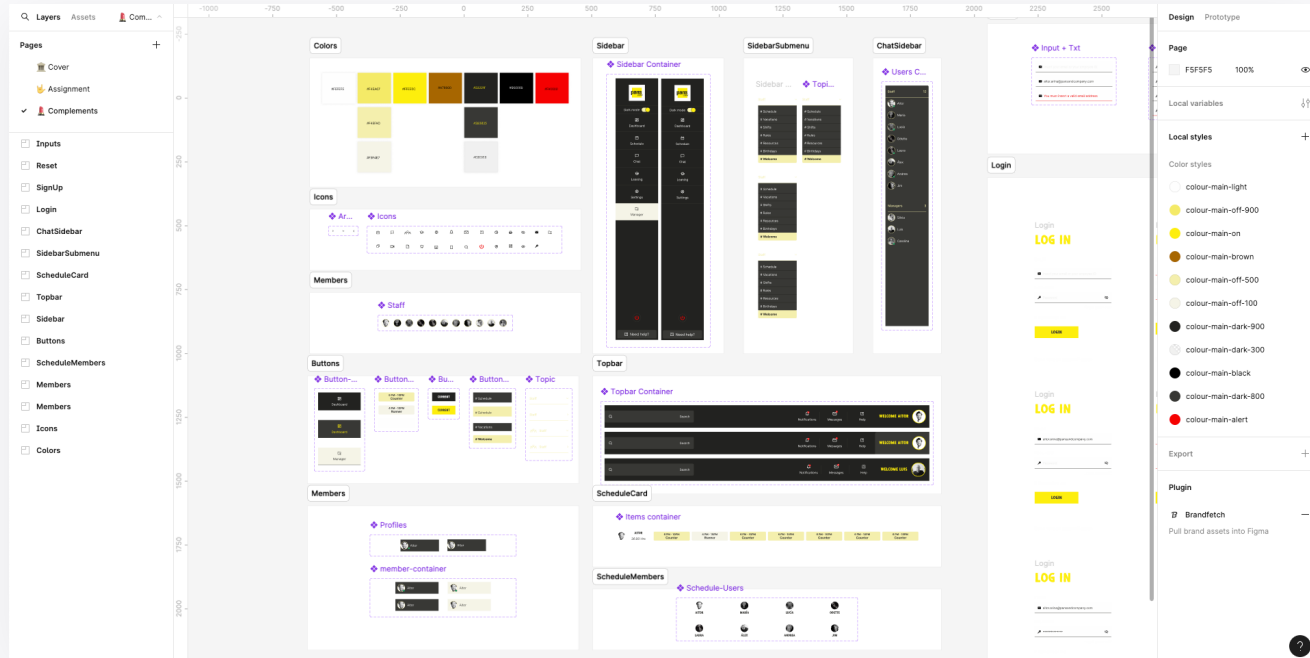

Visually, the **components**, **variants**, and **variables** I created to compose the various elements that make up the intranet.

The elements that make up the **login** and **registration process**, composed of their **atoms** and **molecules** until forming the element.

They are prototyped with the logic of what would happen if we tried to proceed with empty inputs.

Icons, buttons, cards, sidebar, staff members, colors, submenus,...

to see the project in Figma, just click on the [Figma icon](#)
